Teachers' Feedback Analysis & Action Taken Report

It may be said that the quality of a Higher Education Institution depends on the quality of those who impart it: the teachers. The teacher has to play a multidimensional role to inculcate the nuances of subjects to a heterogeneous class of students. Since teachers are the primary medium of exchange of knowledge, their views about the learning outcomes, course content, proper sequencing of topics in the syllabus etc are extremely important for the smooth conduct of the programmes. Teachers are better placed to evaluate the facilities provided by the college for the overall development of the students. Hence feedback from teachers was taken for the session 2021-22.
