Teachers use ICT enabled tools for effective teaching-learning processes

NSCB Government Girls P.G. College to provide high-quality instruction and the necessary assistance, strongly encourages its students, teachers, and research scholars to use ICT-enabled tools, including online resources, in their daily lives. Faculty create modules on significant subjects and make them accessible to students. In addition to helping students stay up with the modern digital and virtual world, the use of ICT by teachers in the classroom has assisted N.S.C.B. Govt. Girls PG College in developing a student-centric teaching methodology. We use tools like YouTube, emails, WhatsApp groups, Zoom, Google Meet, and Google Classrooms to interact, share information, administer examinations, post assignments, give presentations, answer questions, coach students, and provide course materials and syllabus. Wi-Fi and the Internet are accessible at N.S.C.B. Government Girls P.G. College. e-content/study material for many courses and subjects is linked on the college website so that students' learning can be bolstered and improved. The library also enables downloads and gives users access to computers, free public domain online journals, and journals to which patrons have subscribed on the advice of academics. There is also a photocopying facility available. Every professor is obligated to post the attendance statistics, internal and end-of-term grades, and comments about the course and the classes they taught on the college portal. On the other side, the college portal is where students may access all of their academic information. Additionally, the curriculum and the teaching-learning environment for every course throughout every year must receive online student feedback.

Technology Enabled Infrastructure and Support: It comprises of:

- Wi-Fi enabled campus.
- Smart board in some classrooms.
- E-Content for easy access by students.
- Availability of MS team, Zoom and Google Meet for online/blended classes.

Use of ICT by Faculty

1. PowerPoint presentations- Faculties are encouraged to use powerpoint presentations in their teaching by using LCDs and projectors. They are also equipped with a digital library, online search engines, and websites to prepare effective presentations.
2. Seminars and Conference rooms are digitally equipped where guest lectures, expert talks, and various competitions are regularly organized for students.
3. Students have been counselled with the help of Zoom / Google meet applications.
4. Online quiz- Faculties prepare an online quiz for students after the completion of each unit with the help of GOOGLE FORMS.
